1. The Institute

Indian Institute of Technology Bombay is one of the twenty-three national institutes of technology in the country set up with the objectives of making available the facilities for higher education, research and training in various fields of science and technology. Indian Institute of Technology Bombay was established in 1958 with the co-operation and participation of the erstwhile Government of USSR under UNESCO's Technical Assistance Programme.

The Institute is located at Powai, a suburb of Mumbai, on a campus spread over about 480 acres amidst picturesque surroundings with Vihar and Powai lakes on its either side. At present, it has eleven science and technology departments including Department of Humanities and Social Sciences (HSS) and fifteen interdisciplinary groups/centres/schools which offer various undergraduate, postgraduate and doctoral programmes of studies.

2. Student Amenities

The Institute is mostly residential and has 17 hostels for students. Each hostel is an independent entity with its own mess and recreation facilities. The Students' Gymkhana is very well equipped to provide facilities for sports, cultural programmes, National Social Service (NSS) and other extra-curricular activities. The various clubs at the Gymkhana and the Student Activity Centre encourage students to develop their talents in painting, music, photography, modelling and fabrication. The Institute also has good swimming pools on the campus.

Ashank Desai Centre for Policy Studies is one of the more recent centres set up by the Institute. It has started its Ph.D. programme from the Autumn semester of 2017 and now has 45 doctoral students on its role. The Master's programme in Public Policy (MPP) began from the Autumn Semester of 2019.

3. The MPP Programme

The Ashank Centre for Policy Studies (ADCPS) at IIT Bombay is an independent academic centre of the Institute.

ADCPS envisions myriad ways in which its PhD and MPP programmes and graduates from these programmes can contribute to IIT Bombay's intellectual diversity as well as to India's polity and society. The aim is to produce professionals or academics who seek to serve the public interest. These academic programmes will reflect the changing dynamics in today's world and the need for policy to keep pace with technological advancements, process of globalization, and increasingly nuanced and complex public debates about governance. Policy can no longer be contained within the realm of government and bureaucracy; it has to draw upon the civil society, academic institutions, and the private sector. *Finally, ADCPS aims to capitalize on IIT Bombay's existing institutional strengths and build a centre that can be a hub for public policy research and expertise. ADCPS's academic programmes integrate public policy, social sciences, and technology.*
